

# Trapezium Wrist Rest Standard

Ergonomic wrist rest

 BAKKER ELKHUIZEN

*Work Smart - Feel Good*

## This is the wrist rest that fits the newest keyboards

The Trapezium Wrist Rest Standard is especially designed for full-size keyboards and provides natural support for your wrists and hands.

This wrist rest has the right thickness, aiming at bringing the wrist to the same height as current keyboards.

When working with a keyboard and mouse it is important that the arm is sufficiently supported. This can be done by using a good armrest on the desk chair or a separate armrest. An armrest reduces muscle tension in one's arm and shoulder and promotes comfort. A wrist support helps to keep the wrist straight during typing and can be used 'to rest' for a moment during one's work.
